Cool Wave™

The most-asked-for plant brand ever now brings you
Cool Wave – easy spreading color for Spring and Autumn!

Pictured: Mixture

Easy spreading color for

New Mixture

New White

New Yellow

New Frost

New Violet Wing

The best spreading/
trailing pansies on the
market make incredible
cool-season baskets for
early Spring and Autumn
programs.

Also makes a great groundcover
with superior overwintering
hardiness – it's the earliest pansy
to come back in the Spring.

Supported by strong built-in
Cool Wave branding, now you can
profit from growing and selling
the Wave brand with distinct
packaging and merchandising in
Spring, Summer and Autumn.

Blooms hold up in rain and
weather better than larger-
flowered types.

Height: 6 to 8 in./15 to 20 cm

Spread: 24 to 30 in./60 to 75 cm

Spring & Autumn baskets

Spring Matrix™

Matrix has always increased your profitability with less handling and easy crop management due to superior plant structure and uniformity. Now we've taken it even further by introducing NEW Spring Matrix.

While both can be used all season, Matrix is the most uniform series under long days and warmer growing conditions and Spring Matrix is the most uniform series under short days and cooler growing conditions.

Pictured: Ocean

Same superior plant structure as Matrix with uniformity under short days, and great performance under cooler growing conditions.

Grower tested and selected in the northern U.S. and Europe, Spring Matrix gives you the same habit, timing and performance of Matrix under your own growing conditions.

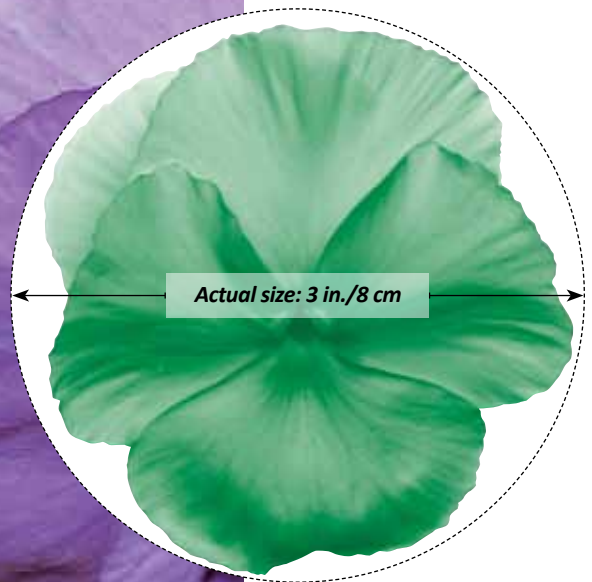

The tightest bloom window of any Spring-flowering pansy, Spring Matrix colors from the same sowing can be shipped together.

Superior branching without stretching assures more flowers per plant.

Viola x wittrockiana

New Daffodil Mixture

Matrix[®]

Superior plant architecture for holdability, and most uniform series under long days.

Similar habit, timing and performance across the series means less handling and simplified crop management.

A 7-day bloom window in Autumn production means all colors from the same sowing ship together.

Superior branching without stretching assures more flowers per plant so you can deliver a better-looking product at retail.

Panola[®] XP

Bred to handle the weather, Panola XP is the ultimate multi-season landscape pansy.

5 to 7-day flowering window, uniform habit and shorter peduncles let you mix and match to create custom mixtures.

Panola outperforms other medium-flowered pansies in all kinds of conditions.

Early-blooming Panola is the best choice for overwintering guaranteed pansy programs.

Free-flowering, well-branched and compact plants maintain their garden height with less stretch in warm climates.

with wide color range

Frizzle Sizzle

A frilly flower form makes Frizzle Sizzle a retail standout!

More unique and bold colors than any other of this type!

Looks fantastic in containers and "close-up" landscapes.

Great choice for cool-season end cap displays.

Stronger ruffling occurs in cool conditions – Spring production is recommended.

Sorbet®

Uniform Sorbet XP lets you send the best- looking violas to retail.

The most uniform plant habit
and tightest flowering window in
top-selling colors.

Fewer PGRs and superior
holdability for more profit.

Plants cover the soil at flowering
with less stretch for more blooms
on every plant.

Performs in a range of climatic
conditions with excellent
overwintering – great for custom
landscape mixes.
