Top Hydrangeas for Your Region

BaïOrnamentals.

The Best Hydrangeas to Grow in Your Region

Ball Ornamentals offers top performers for every region of the country, not just one area. We've listed the most highly recommended, unique and proven hydrangea varieties here to help you choose the right plants for your conditions so your customers are always thrilled with the results.

Your partners at Ball Ornamentals are eager to work with you to build the best program based on your particular needs and the conditions of your area. In addition to our innovative genetics and unique selections that are relevant to your customers, we have the knowledge, the flexibility and the time to support you and your business.

Going Coastal

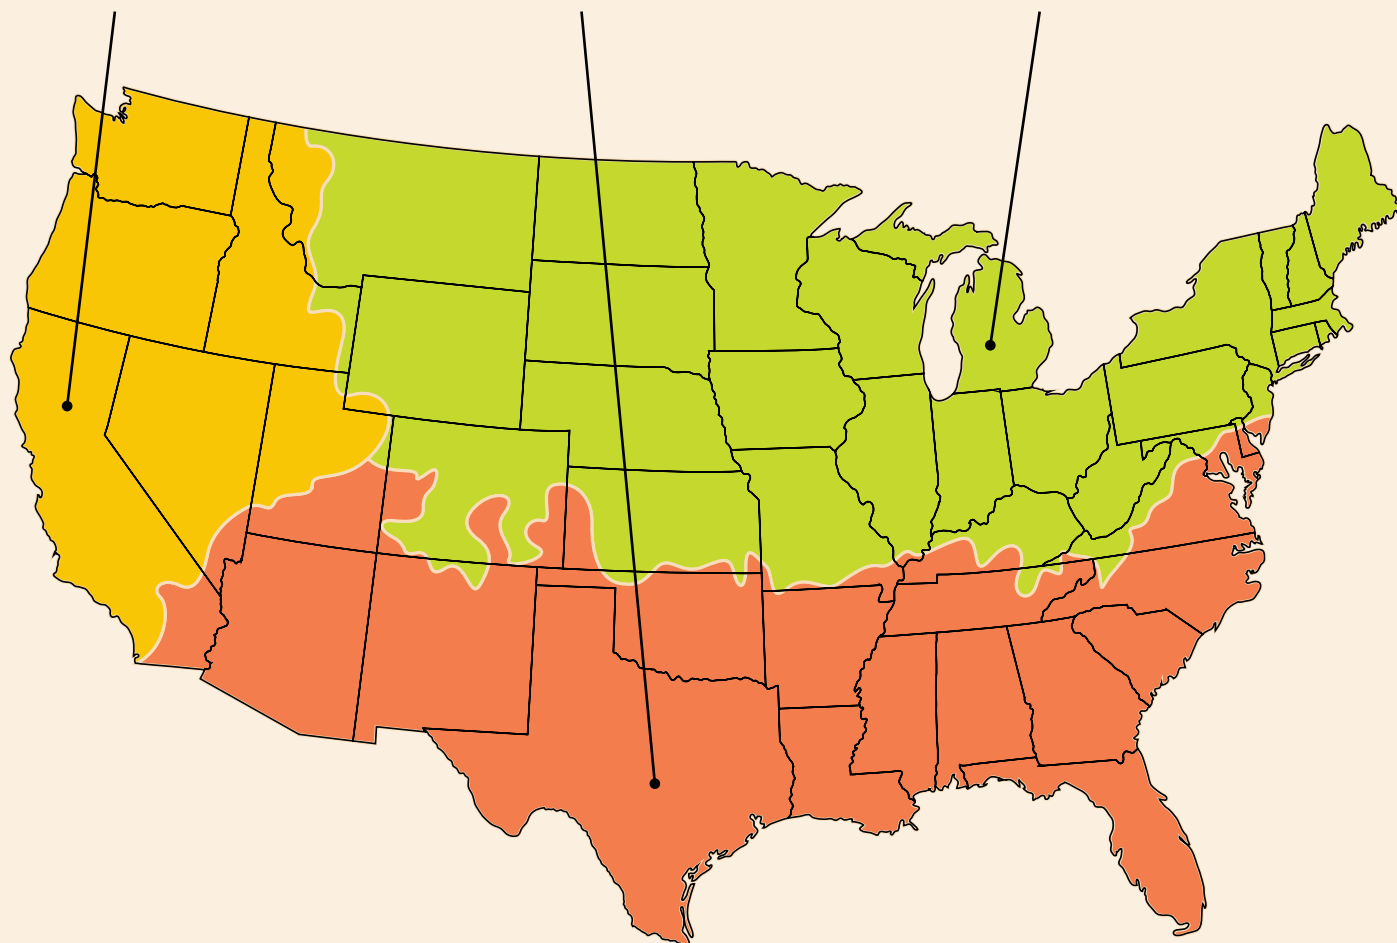

Pacific North and Southern Coast

Takes the Heat

South Central, Southeast and Southwest

Bring On the Chill

Northeast and Midwest

L.A. Dreamin' is hardy to zone 5 and great for all regions! See page 2 for details.

'Red Sensation'
Next Generation

Going Coastal Pacific North and Southern Coast

Even in areas that are less affected by drought and water restrictions, customers continue to seek out water-wise plants to save time and money – and be ecologically friendly. Our selection of hydrangeas for the coastal areas is salt and heat-tolerant, with unique flowers that rebloom all summer long. See page 4.

Pistachio
Next Generation

Takes the Heat South Central, Southeast and Southwest

Hot and humid regions require hydrangeas that can hold up in the heat, but are also unaffected by disease and withstand mildew. Our hydrangeas for this region provide all these, along with foliage and blooms in bold colors with exciting contrast and intriguing variation. See page 6.

'Perfection'
Double Delights™

Bring On the Chill Northeast and Midwest

The demand for more cold-hardy hydrangeas that rebloom on new wood is always high in the most extreme cold regions of the country. The Summer heat is brutal and Winter chill is severe, so the hydrangeas for these areas need to be tough. We offer varieties that will stand up to the high heat and cold, while also providing tons of blooming color – they can even change foliage color in the Fall! See page 8.

L.A. Dreamin'

Innovative hydrangea for all-region growing success

L.A. Dreamin'
Hydrangea

L.A. Dreamin' is for real!

Pink AND blue? Can do, with L.A. Dreamin'. It's the first *H. macrophylla* to show blue, pink and everything in between all at once, on the same plant, without any aluminum sulfate. Throw in great reblooming power and it's clear that L.A. Dreamin' is a grower's - and gardener's - dream come true.

POP and Brand Support

With this branded plant, we offer eye-catching pots and tags along with an extensive consumer marketing campaign for increased pull-through retail sales.

Our new consumer website ladreaminhydrangea.com offers a store locator, care information and decorating ideas for shoppers. Plus, our 2015 advertising and PR campaign incorporating targeted digital and radio advertising, Gmail promotions and sponsorships will reach 7 million consumers. The report is in - L.A. Dreamin' is a true garden center standout!

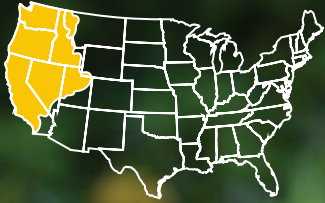

HYDRANGEA ☀️
H. macrophylla

L.A. Dreamin' 'Lindsey Ann' PPAF
Height: 4 ft. (1.2 m)
Spread: 4 ft. (1.2 m)
Zones: 5 to 10

The first Mophead that shows pink, blue and bicolor blooms on the same plant without special treatment
Reblooms on new wood
A real standout in the Hydrangea market
Thrives in morning sun, afternoon shade

Poppet Next Generation

Poppet Next Generation

HYDRANGEA 
H. macrophylla

'Red Sensation' Next Generation PP18,197

Height: 2 to 3 ft. (0.6 to 0.9 m)
Spread: 3 to 5 ft. (0.9 to 1.5 m)
Zones: 5 to 9

Compact plant has shiny, green foliage and Mophead blooms
Large, light red flower clusters bloom through Summer with great reblooming on new wood, too

Firefly Next Generation

'HORCOS' PPAF

Height: 4 ft. (1.2 m)
Spread: 4 ft. (1.2 m)
Zones: 6 to 9

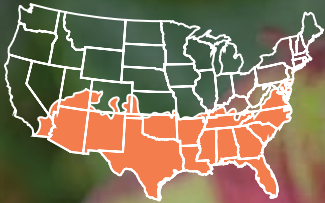

Incredible bicolor petals look like they're painted
Semi-double Mophead has twice the petals
Unique flowers bloom all Summer long with great reblooming, too

Poppet Next Generation

'SAXREB11' PPAF

Height: 3 ft. (0.9 m)
Spread: 3 ft. (0.9 m)
Zones: 5 to 9

Smaller flowers, but lots of them!
Cream-colored eye sets off deep pink petals
For a change...acidic soil produces dark blue to purple blooms
Compact habit for low-growing shrub, with great reblooming

HYDRANGEA 🌞🌧️

H. macrophylla

Pistachio Next Generation

'Horwack' PPAF

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 to 5 ft. (0.9 to 1.5 m)

Zones: 5 to 9

Reblooms on new wood

Natural variability in flower clusters displays a range of mind-bending colors on the same panicle

Sells best at retail with aluminum sulphate applications to make blue eyes pop

Great floral and decorator variety as well as for landscape applications

'Mother's Love' PPAF

Height: 5 ft. (1.5 m)

Spread: 5 ft. (1.5 m)

Zones: 5 to 11

An explosion of smaller, soft pink flower clusters

Dark foliage - burgundy and green with red stems

Looks like a floribunda-type annual

Blooms often...and long!

Wedding Ring Next

Generation 'Fanfare' PP21,161

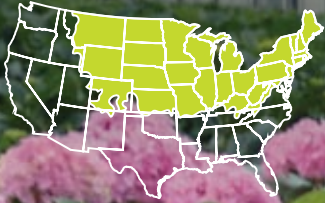

Height: 3 to 4 ft. (0.9 to 1.2 m)

Spread: 3 to 5 ft. (0.9 to 1.5 m)

Zones: 5 to 9

Compact habit means more landscape uses, with great reblooming

Magical bicolor mophead blooms of blue or pink - a gardener's favorite

Bring On the Chill

Northeast and Midwest
